

Engineer
Westlake, Ohio

Who we are:

OxyGo HQ Florida LLC is a fast-growing manufacturer that is looking to fill a full-time position in our Westlake, Ohio facility. We provide a friendly, clean and safe work environment for our associates and are looking for a highly motivated and reliable individual.

About the role:

- Designs mechanical, electromechanical products and systems by developing and testing specifications and methods
- Lead and resolve production issues through project management and development
- Evaluates mechanical and electromechanical systems and products by designing and conducting research programs and applying principles of mechanics, thermodynamics, hydraulics, heat transfer, and materials
- Confirms system and product capabilities by designing feasibility and testing methods and properties
- Develops mechanical and electromechanical products by studying customer requirements, researching, testing manufacturing and assembly methods and materials, and soliciting observations from operators
- Develops manufacturing processes by designing and modifying equipment for fabricating, building, assembling, and installing components
- Assures system and product quality by designing testing methods, testing finished product and system capabilities, confirming fabrication, assembly, and installation processes
- Prepares product reports by collecting, analyzing, summarizing information and trends
- Provides engineering information by answering questions and requests
- Maintains product and company reputation by complying with government regulations
- Keeps equipment operational by coordinating maintenance and repair services, following manufacturer's instructions and established procedures, and requesting special services
- Maintains system and product database by writing computer programs and entering data
- Completes projects by training and guiding technicians
- Maintains professional and technical knowledge by attending educational workshops, reviewing professional publications, establishing personal networks, and participating in professional societies

Salary Range: Compensation commensurate with experience
