Orthopedic Padding

Moleskin is a soft, adhesive backed cotton material that protects skin from blisters, calluses, chafing, and other skin irritations caused by abrasive contact. It helps wick away moisture and cushion the skin. It's also great for cushioning the edges of rigid splinting materials. Moleskin can be cut to size and adhesive may be applied directly to skin. Standard moleskin has a white adhesive containing zinc oxide with a beige cotton. Latex free adhesive is clear and available with either a beige or white cotton facing. TTurf toe straps help keep the big toe in position and reduce pain. They are cut from latex free moleskin.

Exercise Padding

Foam therapy rolls are widely used for therapy, exercise, and conditioning. Made from durable closed cell polyethylene foam, these are available in a variety of diameters in white and as both full and half round. The 6" style is the most popular and is also available in a blue color.

The soft blue roller is made from urethane foam and is a good choice for those looking for a softer product.

Foam rocker board is made from high density closed cell polyethylene foam. It is an economical choice for stretching and balance training.

Gel Wheelchair Padding

The wheelchair comes in contact with many parts of the body. It is often in use for long periods of time each day and on a long-term basis. Abrasion and pressure are the two main ways wheelchair use adversely affects people. Gel padding aids in the prevention of abrasion and pressure. Gel Pads are the industry's best solution to prevention and comfort. The pads are a water based gel with a washable neoprene cover.

Foam Bolsters & Wedges

High density urethane foam bolsters and wedges are frequently used for positioning and support. Wedges can be used during therapy to position clients, relieve muscle strain, and improve breathing. Bolsters are useful for rolling and rocking movement in therapy as well as for vestibular training.

Wedges are available three ways depending on what level of cleaning is required.

- Gray foam
- Blue water resistant nylon removable cover with zipper closure
- Durable blue vinyl coating

Bolsters are available in the standard gray foam or with blue vinyl coating.
