

## **MINISPRAYJET**

**A compact and light weight flame spraying gun**

Part Number 0301-1111 (gun only)

**Highlights:** 0301-1115 (kit)

- Integrated powder transport system
- integrated gate valve
- Overhead position through removable and 180° changeable powder connection
- Just one powder connector with adjustable slider for different capacities

### Areas of use/application:

#### **Metal powder coating**

for the hot and cold spraying techniques with self flowing or metal and oxidized ceramic powders

#### **Corrosion resistant coatings**

On the basis of low melting metal flame spraying powder (for example zinc and aluminium)

#### **Plastic coatings**

Many different types of thermo-plastics and epoxy material

Because of its modular-building-system, the standard gun **MINISPRAYJET** can be used for many applications (e.g. through nozzle extension etc.)
