

MINISPRAYJET

A compact and light weight flame spraying gun

Part Number 0301-1111 (gun only)

Highlights: 0301-1115 (kit)

- **Integrated powder transport system**
- **integrated gate valve**
- **Overhead position through removable and 180° changeable powder connection**
- **Just one powder connector with adjustable slider for different capacities**

Areas of use/application:

Metal powder coating

for the hot and cold spraying techniques with self flowing or metal and oxidized ceramic powders

Corrosion resistant coatings

On the basis of low melting metal flame spraying powder (for example zinc and aluminium)

Plastic coatings

Many different types of thermo-plastics and epoxy material

Because of its modular-building-system, the standard gun **MINISPRAYJET** can be used for many applications (e.g. through nozzle extension etc.)
