## SALES ANALYTICS

**Grow Your Top Line Using Vizion360 Sales Analytics**

### SALES ANALYTICS APP

**Designed to quickly impact your business by transforming your sales data in a way you've never seen before. Actionable dashboards and interactive reporting will immediately allow your organization to gain valuable insights, spot trends, identify opportunities and create a productive competitive environment.**

#### SALES ANALYTICS APP

Companies that can identify sales opportunities quickly and proactively can instantly increase their top Line. The Vizion360™ Sales Application is designed to quickly identify these opportunities, allowing you to gain better insight into your customers, products and sales processes. These insights can lead to huge sales gains, increased customer satisfaction, increased market share and insure that you reach your budgetary goals.

#### BUSINESS VALUE

By providing instant access to sales trends, gross margin statistics and other key performance indicators (KPI's), the Vizion360™ Sales App will deliver actionable insights to better manage your business and drive sales initiatives.

- ✓ **A single location for all your sales information to be monitored and delivered up to 10X faster than traditional methods.**
- ✓ **Data automation: 100% quality, consistency and delivery of information. Data available to you in seconds, not hours or days.**
- ✓ **Manage and improve customer retention by up to 10% by monitoring customer buying patterns and lost sales statistics**
- ✓ **Month over month sales improvements by delivering insights into sales trends and opportunities by multi-attributes analysis**
- ✓ **Instantly gain actionable insights and start to make data supported decisions for your organization.**
- ✓ **Effectively manage your sales team and inspire performance by benchmarking – company averages by region, territory and district comparisons; products and product categories; and much more...**
