

V360 ZERO RISK GUARENTEE

\$6,000 VALUE

Fully understanding the transformational power that VIZION360 and Microsoft Power BI can have on a business, is best conveyed when decisionmakers see their own data. The Vizion360 ZERO RISK Proof of Concept (POC) will demonstrate how we can transform your organization, by turning data into knowledge and creating a custom BI experience that resonates with tangible value.

Through our Proof of Concept process, our team of business intelligence experts will engage with your business leadership, identifying the key measures and reporting that would help steer the company. We use your source data to create a fully functional BI platform as a proof of concept.

VIZION360 Proof of Concept Program

5 Simple Steps:

- 1) Meet with your leadership team to identify the high-level scope of the POC
- 2) Identify specific business need(s) for the POC to address
- 3) Execute Confidentiality Agreements - your data will be protected and secure
- 4) Gather sample data and sample reports currently in use
- 5) POC walkthrough for the leadership team (in 5-10 business days after step 4)

POC Deliverables:

- Full Production Experience– See exactly what a custom Vizion360 production environment will look like for your organization
- Dashboards and Reports – Your data revealed through Power BI dashboards, interactive reports, data visualizations and a Vizion360 Excel pivot table reporting library
- Assessment of Technical Requirements – Identification of processes, data flows and procedures
- Implementation Roadmap – Business blueprint including business requirements, KPI's, metrics, calculations, additional reporting, and implementation timeline

By the end of this Proof of Concept engagement, you will see production-ready Power BI dashboards and reporting built using your own data, addressing the identified business need and/or issues. Vizion will then layout the foundation and roadmap for a properly configured BI environment.

Work can begin with your project team to scope out an implementation plan that includes automated data extraction, data modeling, purpose-built applications and educational training for IT and users; allowing for a smooth roll-out of a fully productionized Vizion360 Business Intelligence platform throughout your organization.

VIZION360 Proof of Concept Guarantee

At Vizion, we see ourselves as your partner, not a vendor. We want to ensure that you are comfortable and confident when moving forward with a Vizion360 engagement. While our POC is valued at over \$6,000, we are offering *qualified organizations* a Proof of Concept **at no cost, with no strings attached**. All we need is your data. Contact your VIZION360 Sales team today to get started. Don't wait, this is a limited time offer and you don't want to miss out.

Vizion reserves the right to refuse any company that it feels, at its sole discretion, is not living up to spirit of the offer
